

# Windows User Guide

## CRN Generator Tool Program

Once installed, open the Tool and you will see the Home page.

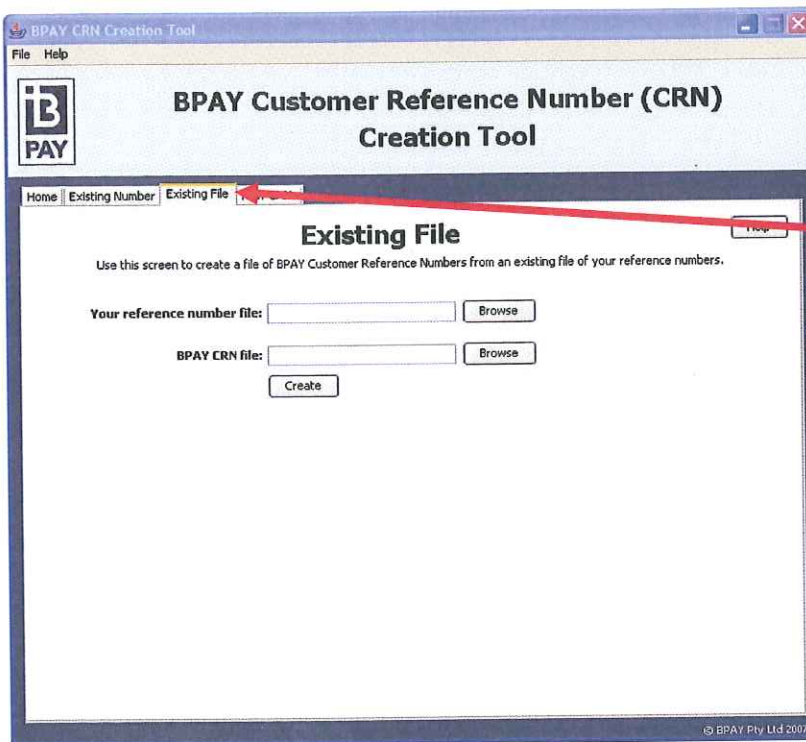

Use the Existing Number tab, when you would like to convert one number at a time into to a CRN.

## CRN Generator Tool Program continued

The screenshot shows the 'Existing File' tab of the BPAY CRN Creation Tool. The window title is 'BPAY CRN Creation Tool'. The menu bar has 'File' and 'Help'. The toolbar has 'Home', 'Existing Number', 'Existing File' (selected), and 'Help'. The main area is titled 'Existing File' and contains the instruction: 'Use this screen to create a file of BPAY Customer Reference Numbers from an existing file of your reference numbers.' Below this are two input fields: 'Your reference number file:' and 'BPAY CRN file:', each with a 'Browse' button. At the bottom is a 'Create' button. A red arrow points from the 'Existing File' tab in the toolbar to the 'Existing File' title.

Use the Existing File tab, when you have a list of existing numbers that you would like to convert into CRNs.

The screenshot shows the 'New CRNs' tab of the BPAY CRN Creation Tool. The window title is 'BPAY CRN Creation Tool'. The menu bar has 'File' and 'Help'. The toolbar has 'Home', 'Existing Number', 'Existing File', and 'New CRNs' (selected). The main area is titled 'New CRNs' and contains the instruction: 'Use this screen to create one or more Customer Reference Numbers'. Below this are several input fields: 'Biller Code:' with a dropdown menu (text: 'Leave blank, enter or select a Biller Code.'), 'CRN Length:' with a spinner box (value: 5), 'Number of CRNs to create:' with a spinner box (value: 100, range: 1 - 1000), 'Start from Number (optional):', 'CRN Prefix (optional):', and 'Output File:' with a 'Browse' button. At the bottom is a 'Create' button. A red arrow points from the 'New CRNs' tab in the toolbar to the 'New CRNs' title. Another red arrow points from the 'Output File:' label to the 'Output File:' input field.

Use the New CRNs tab, when you do not have any existing numbers and would like the tool to create new CRNs.

Enter CRN length (it can be between 2 and 20 digits).

Enter the number of CRNs you require.

Output File: choose where you want the CRNs to be saved
